

POT CREEK ASSESSMENT

The assessment is made in accordance with a memorandum of understanding between the States of Colorado and Utah. This memorandum provides that Colorado pay 20% of the annual budget and Utah 80%. Utah's 80% is divided among the users of the previous year's total water delivery in acre-feet, which is divided into the budget as established at the annual water users' meeting to obtain a rate per acre-foot. This rate is used to calculate the individual assessments against each user's acre-foot usage. There is a \$1.00 minimum assessment for stock users on this system.
